

Project Checklist

Stepwise | A simple plan for completing a small project

01 Set your goal

- ☐ Choose one small result you want to achieve.
- ☐ Describe what a successful result will look like.
- ☐ Identify the inputs and the expected output.

02 Plan your work

- ☐ Break the task into small, manageable actions.
- ☐ Start with the simplest action and complete it first.
- ☐ Record anything you need to learn or clarify.

03 Check your result

- ☐ Compare your work with the original goal.
- ☐ Check the usual case and at least one edge case.
- ☐ Fix issues and explain how to use the finished result.

Notes
